

GEEK CULTURE IS OUR WAY OF LIFE, AND ENCOMPASSES MOVIES, GAMES, COMICS, AND TRENDS FROM ACROSS THE GLOBE

INSIDE

THIS MONTH IN CULT: RIP Stan Lee, you will be missed. We also look at what jobs you could do in the Potterverse, listen to booman whinge about foldable displays and see what the boys (and girl) were up to this month

Lion King trailer

While calling it a live-action movie isn't exactly accurate, the Lion King trailer made most of us nostalgic. The newer generation will go through what we did when Mufasa tries to rescue Simba. We're also excited that James Earl Jones is returning as the voice of Mufasa. <https://digit.in/LKDsny>

WHAT'S NEW

Stan Lee's legacy

Last month the tragic passing of Stan Lee saw the outpour of love and respect coming in from all over the world. He was probably the most influential person for the comic book industry, who not only created and co-created new superheroes but over time, managed to build an entire fictional universe. Along with Jack Kirby and other well-known artists like Steve Ditko, Stan went on to co-create massively popular characters including Fantastic Four, Spider-man, Iron Man, Doctor Strange and more. Rather than focusing only on how powerful, he said that he wanted his superheroes to look believable so that the readers could relate to them. He also pushed for

diversity and representation a long time before it was considered cool. His characters then made their way into television and movies.

The success of the Marvel Cinematic Universe was built on the foundations laid by Stan and his co-creators, as their characters kept evolving over the ages. Even if you aren't a comic book fan, you would have noticed him from his many cameos in every Marvel movie. Things won't be the same without you Stan. We miss you!

Suicide Squad originally had Steppenwolf

WB had set out to create the DC Extended Universe starting with Man of Steel in 2013. Suicide Squad was also a part of the same universe, with Batfleck making multiple appearances in the movie as well. But it looks like, Suicide Squad was intended to have stronger ties to Justice League or rather half the plot of the movie. Steppenwolf was supposed to be the final "boss fight" instead of Enchantress, the witch. This was confirmed

by Suicide Squad director David Ayer while replying to questions from fans on Twitter.

The original idea of the movie included Enchantress being under the control of a Mother Box that Steppenwolf

seeks while planning an invasion using a boom tube. Even Parademons were supposedly present in the story. However, the plan was dropped which later was evolved to fit in the Justice League arc. Suicide Squad and Justice League were both underwhelming. Looking on the bright side, Aquaman director James Wan has said that he was given freedom to work on his own vision for the movie.
