

Bad drivers help cars

To master driving, autonomous cars might need to learn from terrible drivers as well as competent ones. <https://digit.in/feb19-49>

Cigarette filters pollute

Plastic straws, bags are known as the worst pollutants. However, cigarette filters could be a bigger problem. <https://digit.in/feb19-50>

Just the tip

Although the interiors are completely new, only the tip of the Apple Pencil is compatible with the older model. However, since the rest is completely different, you won't be able to charge and use the Pencil itself on the new iPad.

Apple iPad Pro 11"

Welded Pencil

Gaining access to the insides of the Pencil is a one way trip. Once inside, there's a big black sheath or ribbon covering the body. Rest of the components are soldered and protected inside a steel casing that has to be destroyed to open up.

USB-C port update

Apple opting for a globally standardised means of connection is shocking and they have done it by replacing the Lightning port with a USB Type-C port. Existing Apple users might not like this move. Also, the port is modular, making it easier for repairs.
