

### Gorgeous image of the Cosmic Bat nebula

This particular image of the Cosmic Bat is the most detailed image of the nebula ever taken since it was first catalogued. <https://dgit.in/apr19-21>

### Watch the Martian Sunset

Man uses images captured by NASA's InSight Mars Lander to create timelapse of a Martian sunset. <https://dgit.in/apr19-22>

Image composition involves taking multiple photos and putting them together into one shot. From long exposures to stacking multiple photos, to creating mosaics, a variety of techniques are used.
