

44 | Sci-Fi on Netflix

Netflix has a wide variety of Sci-Fi shows available to geek out on, and we have listed the ones that are fun to watch.

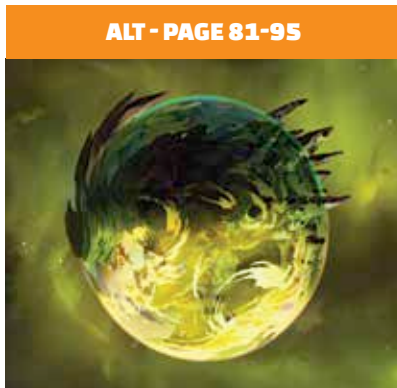

46 | Booman hates April

Because why hate one thing when you can hate it all!

50 | 1000 Words

One of the factors that make an image go viral is its improbably perfect timing, which requires either luck or planning.

AND MORE

82 | Famous Equations

These equations are for everyone, not just mathematicians and scientists. Here is how they affect your life.

84 | Living Planets

Some planets in SciFi are not just dead chunks of rocks, but have a mind.

88 | India's esports potential

We sit down with Intel's gaming guys to learn about their plans for the Indian esports scene.

AND MORE

52 | Emerald Icebergs

Most icebergs are blue or white in colour, but very rarely, an iceberg is spotted with a bright emerald colouration.

54 | Origins: Typefaces

The evolution of typefaces is a lesson in human history.

62 | Tractor Beams

Rays grab and move objects has been a science fiction staple, which has recently been defictionalised.

AND MORE

ON THE DVD

TECH

Solus 4 Fortitude

Solus is a modern operating system to power your daily needs, and is designed to accommodate a wide range of use cases.

Keras

Keras is a high-level neural networks API, written in Python and capable of running on top of TensorFlow, CNTK, or Theano. All these three backends are included on the DVD as well.
