did, the complexities and nuances in storytelling far surpass that of Game of Thrones'. It keeps delivering blows after blows consistently across its seasons, unlike GoT which got tamer as seasons passed by.

THE WHITE QUEEN

What better show to replace GoT with than the one that was the actual inspiration behind it? The White Queen is a TV series that is based on the War of the Roses, English civil wars between two rival houses to assume the control of the throne of England. George R. R.

Martin was directly inspired by this real-life civil war and this led to the creation of the series of novels which led to the TV show we all know and love today. Even the names of some of the houses in GoT (Lannister = Lancaster) were inspired by this real-life event.

SPARTACUS

If Game of Thrones was based on gladiators instead of noble families and mythical lands, it would have been more like Spartacus. The historical epic TV series tells the riveting tale of the gladiator, Spartacus (no surprises there) who organises an uprising against Roman captors. The show has received quite the 'cable TV treatment' and features everything from violence and drama. Everything you've come to expect from Game of Thrones and maybe more.

THE BASTARD EXECUTIONER

This show might very well be the ultimate cure for your GoT withdrawal symptoms. The TV series featuring a badass executioner in the 1300s is completely packed to the brim with gore, blood, story, violence and swords! Albeit, it might feature less fantasy than

GoT, it still makes for a great alternative for the highly-acclaimed TV show. Unfortunately, it was cancelled after one season, but the season has a bit of everything GoT was known for, for you to enjoy.

THE LAST KINGDOM

Just like GoT, this lesser-known TV show is based on a series of novels called the Saxon Stories. The show has been set sometime during the 10th century AD in England when the Viking invasions were very prevalent. Remember the fight between Oberyn Martell and the Mountain, and the gory (but awesome) eye-gouging scene? Well, this show has that and more including beheadings, stabbings, crucifixions, bone-crunching battles, clinking of swords and more.

THE TUDORS

Game of Thrones was so much more than violence and drama, it was about politics, the struggle for power and its disastrous consequences. The Tudors follows a similar arc by exploring the story of Henry VIII's rule over England and his political authority over the region. While the storyline isn't exactly historically accurate, it is still a great watch featuring lots of gritty drama and interesting character arcs. It even has Natalie Dormer (Margaery Tyrell from GoT) playing one of the main characters.

This is also bound to evoke some serious GoT nostalgia.

OUTLANDER

This show is based on a bestselling series of books by Diana Gabaldon with the same name. It surrounds the story of a nurse who is unexpectedly transported back in time to 1743. A timeline-bending narrative, steamy romance, numerous battles, and plentiful twists then ensue. Basically, it is GoT with mature romance and slow-burning drama.

CAMELOT

Camelot is a period drama which retells a classic English legend, the Arthurian legend, utilising violence and nudity. Sounds very GoT, right? Except the whole Arthurian legend part, of course. It has a stellar cast with the likes of Joseph Fiennes playing Merlin the sorcerer, Jamie Campbell Bower playing Arthur and Eva Green playing Morgan, Arthur's half-sister.

THE HANDMAID'S TALE

Ah, Handmaid's Tale. There are very few TV shows that have reached this level of inherent darkness and depiction of

the horrors of society. The show is shot stylishly and aesthetically, has powerful acting and is deeply (we reiterate, DEEPLY) disturbing. Also, it is far more likely to happen in real life than the GoT narrative, since it features women being apocalyptically oppressed. The show has caused a resounding stir in several feminist circles across the world.

VIKINGS

Vikings is yet another historical drama that follows the trials and tribulations of a legendary Norse hero, who is a
