If you ever wondered what was the point of all the Yoga breathing exercises, go to this link. NOW. <https://digit.in/aug19-79>

Murderers have less gray matter

Researchers report that the brains of murderers have lesser gray matter when compared to others. <https://digit.in/aug19-80>

The most fun thing about fractals, also known as algorithmic art is that you can use a number of software and techniques to generate your own, to share with the world.

Design porn explores all the innovative and clever ways in which objects have been designed, either for utility or symbolic meaning. Shown here is a Hungarian World War memorial.

Cities can be thought of as oppressive concrete jungles, but as they say, beauty is in the eye of the beholder. Shown here is a part of the Abu Dhabi skyline.

Bibliophiles consume all kinds of book porn, from images of rare volumes, to well designed book covers, to images of large, sprawling libraries.

Bonsai is a Japanese art form that involves growing miniature trees, and is a hobby now taken up by people around the world.

Architecture porn is pretty expensive, and can be either interiors, exteriors, or entire cityscapes. This community finds pleasure in the forms of buildings around the world.

Some people have a thing for aerial photos, and connoisseurs are particularly enthusiastic about capturing their own original photographs and sharing them.

An offshoot of urban exploration, abandoned places provide insight into the decay in modern society, and are as such a time capsule that provide a glimpse into a forgotten past.
