MUST WATCH ANIME OF 2019

The best new anime to watch in 2019 so far!

Manish Rajesh | manish@digit.in

We're at the halfway mark in terms of anime-watching this year, and we've already seen quite a few decent new anime. Of course, let's not forget shows that came back with a second or even third season as well. This list will not include anime that have been running for ages (looking at you, One Piece) but will instead focus on seasonal series. Fortunately, pretty much all the shows in the list wrapped up in the first half of the year, so you can watch them non-stop, without needing to wait a week for an update. Let's get right into it!

ATTACK ON TITAN: S3

You don't need us to tell you how popular Attack on Titan is. It's one of those shows that you might've heard about even if you'd never watched anime before. It's also possibly one of the shows that got you into watching anime in the first place. Attack on Titan's third season aired in the first half of the year, and it's looking like one of the best ones so far, you don't want to miss

this one. The premise of the show is a bit weird, humanity now lives inside huge walls. Why? Because there are huge mindless human-looking creatures outside that eat humans. That's a good enough reason for big walls in our books. The show revolves around how humans deal with the Titan threat.

MOB PSYCHO 100 II

Mob Psycho 100 II was one of the most highly anticipated seasons of the year. Mob is what you would call overpowered, he's an immensely powerful psychic, but most people around him don't really know this. To make matters complicated, Mob works as an assistant to Reigen Arataka, a fake "psychic". You can sort of see where this is going now. They get into some pretty funny and interesting situations. The animation might be a turn off to some, but don't let that prevent you from enjoying a great show.

THE PROMISED NEVERLAND

The Promised Neverland was a sleeper hit this year. Definitely a very feelsy and dark show, the anime revolves around the Grace Field House, which is an orphanage, and the dark happenings and dealings surrounding it. When two of the orphans, Emma and Norman, see something they're not supposed to, they become determined to escape the orphanage and the fate that awaits

the children who live in it. Definitely a show to watch if you're someone who enjoys good plot.
