

digit diary

If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

Day 432: Piercing through the persistent darkness of the cavern that was once the Digit Test Labs, are the odd sounds emanating from one corner. As you approach the corner, the odds sounds grow more distinct. You hear a clink, a sploosh, a drop, followed by a nasal "hmmm". Nothing seems familiar and a look of confusion slowly creeps onto your face. As you inch towards the corner from wherein the sounds appears to be coming from, you hear a couple of rapid flicks and all the lights start to switch on one after the other from the back of the entrance towards the spot where you stand. The darkness is scurrying away from the wave of bright lights that are now flooding the room. A hooded figure seems to be running at the front and is hastily approaching. This could be it, your time on earth is now at an end. You close your eyes awaiting the end but the hooded figure runs past you and towards the corner from where the sounds were

coming from. The figure yells, "Yes, I got mending and Loyalty!"

Confused and surprised? Well, you better be because once all the lights turn on you'll see it was Dhriti running to her PC to check on all the loot she'd gained overnight from her automatic fish farm in Minecraft. She's gone onto the next level and a mess of automated contraptions now litter her base. Yes, she has her own base and so do the others but the addiction is strongest with this one. Like a junkie trying to get her next fix, you can see her moving from one farm to another, tending and gathering her precious loot. Manish and Mithun, on the other hand, have been more focused on creative pursuits. Manish, inspired by a YouTuber, is in the process of building a massive castle whereas Mithun is more focused on adding more structures to his sky

city. In the midst of all this is Aditya, who after more than a year of persuasion, has finally picked up another game - The Witcher 3.

Robert has had a busy couple of weeks this month. A lot of running about getting his new 5G connection up and running with the hopes of getting something to boast about. Alas, his older 3G connection turned out to be much faster. First world Australia, folks! The grass is greener...

In other news, we had another edition of the Digit Squad Tech Day, this time in Mumbai. Folks from both offices came down to the venue and spent the entire day setting up machines, VR HMDs and other stuff for the folks who were to come and experience them all. If you're feeling left out, then stay tuned to the social channels to know which city we'll be coming next.

QUOTE OF THE MONTH

"Learn to follow instructions! Dammit"

- Mithun to Dhriti while kidnapping a villager in Minecraft

DISCUSSIONS

Every month we will highlight some of the more interesting discussions happening on our Digit Forum (digit.in/forum). Head over and join our forum if you want quick answers to your queries from some of the geekiest Indians online. In case you love giving gyaan, or even if you love arguing with others, the Forum is the place you should be.

Mindhunter

While almost everyone was waiting for Sacred Games 2 to return on August 15, folks at Digit wanted to catch the second season of Mindhunter that dropped just a day later, on August 16.

₹1 Lakh Home Theatre

The forum members help set up a complete home theater system, all within a budget of ₹1 lakh, which included a 4K television, an AVR, speakers and a subwoofer.

<https://digit.in/1lht>

Repairing a TV

A user opened up an old broken TV trying to repair it by sourcing the replacement components himself, which became an interesting discussion on manufacturing and labour laws in India.
