

ANIME

Zetsuen no Tempest

★★★★☆ | Not exactly a new show, at this point, it's fairly old. Zetsuen no Tempest, or Blast of Tempest, first aired back in 2012. The show revolves around the mysterious murder of Fuwa Aika. Her death sends her brother, Fuwa Mahiro into a vengeful rage, and he will stop at nothing until he finds his sister's murderer. Accompanying him on his quest (and keeping him sane), is Takigawa Yoshino, Mahiro's best friend. Unknown to Mahiro, though, is that fact that Yoshino and Aika were in a relationship, and her death has equally affected him as well, more so than he lets on. The hunt for Aika's killer leads them to Kusaribe Hakaze, a mage or magic user who draws her powers from the mysterious Tree of Exodus. Definitely not your regular murder drama. The anime constantly references William Shakespeare's Tempest, hence the name, and has plenty of psychological and supernatural elements. It also features great visuals and animation, on top of an opening song by Nothing's Carved in Stone that you can't skip. The show's not necessarily for everyone and can feel confusing at times however, still worth checking out.

COMIC

The Last Asuran Vol. 1 – Bite Marks

★★★★☆ | The Last Asuran is a self-assured "rural" fantasy, set in a hinterland small town. This tells the origin story of an abandoned baby, adopted by a gangster, who is on the top of an underground fighting circuit. Desh takes on dangerous missions on the behest of his adopted father, Uncle Monty. This is when he comes across a village where everyone is not what they seem to be. What follows have elements of the supernatural and dark fantasy. Now the interesting thing for readers is that this is a spinoff of the Aghori series, showing Desh as he was before the events in Aghori, before he became a mature crusader for justice. There are also links to the Age of Immortals, which are great easter eggs for those who have read these other series. Surprisingly enough, there are even tenuous links to Ram V's These Savage Shores. The Last Asuran Vol. 1 – Bite Marks is another kickass addition to the Holy Cow Entertainment lineup, revealing more details of the growing Holy Cow shared universe, or the HCverse. The story is by Ram V with artwork from Vivek Goel and Gaurav Shrivastav. The team has together worked previously on the Aghori, Age of Immortals and Shaitaan series. This is a relentless, beautifully-drawn, gory story that demands your attention throughout, and the only possible complaint is that it is too short.

UP AND COMING

MOVIE

Birds of Prey

Many will agree that the best part about the Suicide Squad movie was Margot Robbie as Harley Quinn. The

Fantabulous Emancipation of One Harley Quinn sees her reprise her role as Harley Quinn and team up with other DC heroines to save a young girl.

Release date: 7 February 2020

MOVIE

Sonic the Hedgehog

When the first Sonic the Hedgehog trailer dropped, people were rightly terrified of the abomination in front of them.

However, the creators actually heard our outcry and went back to the drawing board; the new Sonic is miles better (see what we did there?).

Release date: 28 February 2020

TV SHOW

Brooklyn Nine-Nine

Andy Samberg's brainchild is back with another season, after almost having been cancelled two seasons ago.

The show survived thanks to its popularity with the fans, who are no doubt eagerly awaiting the new season to drop.

Release date: 6 February 2020
