

lakh crore to help those facing financial hardship during the lockdown. The package's aim is to provide over 800 million Indians with free grains, cooking gas, and cash. The relief was further reinforced by ₹15,000 crore, to further aid with the rising number of required coronavirus testing facilities, Personal Protective Equipment (PPE), isolation Beds, ICU beds, ventilators and other essential equipment.

Furthermore, the government will provide 5kg of wheat/rice in addition to what the benefactors were already getting as part of the PM Garib Kalyan Yojana which first started in 2016. This also includes one kg of any pulse of their choice for the next three months.

The government has also declared health insurance worth ₹50 lakh for the 22 lakh medical workers currently risking their lives working in government hospitals across the country.

Furthermore, the package will be providing over 8 crore farmers across the nation with ₹2000 per month for the next three months. Under this relief package, the government will also bear the cost of employee provident funds for all establishments having less than 100 employees where 90% earn less than ₹15,000 per month. 31,000 crore will go towards help construction workers across the country.

PRADHAN MANTRI UJJWALA YOJANA

The Pradhan Mantri Ujjwala Yojana was started by the Ministry of Petroleum & Natural Gas to provide women and families under the poverty line with clean gas/cooking fuel. As part of the PM Garib Kalyan Yojana, over 8 crore individuals, as part of the PM Ujjwala Yojana will be provided with a total of 3 LPG gas cylinders between the months of April to June.

PM CARES FUND

The PM Cares Fund is a dedicated national fund. The primary objective of the fund is to deal with any kind of emergency or distress situation. The current COVID-19 pandemic definitely falls under this criteria and as such the PM Cares Fund is dedicated

to providing relief for those affected. A public charitable trust, the 'Prime Minister's Citizen Assistance and Relief in Emergency Situations Fund' (or PM CARES Fund) has been set up for this sole purpose.

The PM CARES Fund will be used to provide financial assistance, support and relief to those affected by the COVID-19 pandemic in the country.

The fund consists entirely of donations and contributions made by individuals and organisations. It doesn't get any budgetary support from the government. All donations made to the fund are exempt from tax as well, under the Income Tax Act of 1961. The PM CARES Fund can also receive international contributions.

As such, the fund is being focused on providing quality treatment for those affected by the COVID-19 outbreak and is also being used to encourage research on ways to beat the novel coronavirus.

AAROGYA SETU

Previously known as the Corona Kavach app, Aarogya Setu is a COVID-19 tracking app that has been developed by the National Informatics Centre which falls under the

Ministry of Electronics and Information Technology. The main purpose of the app is to spread awareness about COVID-19, and it also provides the best practices and precautions to take. The app also comes in 11 different languages to help spread awareness across the country.

The app utilises Bluetooth technology and GPS to track the spread of infections. It scans through a database of known cases throughout the country and alerts users to whether they're in an infected area or locations. The higher the number of people who use the app, the more effective it becomes. We urge everyone to download the app, which is available for both iOS and Android.

JIO HAPTİK WHATSAPP CHATBOT

Haptik has developed the MyGov Corona Helpdesk which is the official WhatsApp help chatbot for the

Government of India. The purpose of the chatbot is to prevent the spread of rumours, myths and misinformation about the novel coronavirus. The chatbot enables people to be able to have access to reliable information as long as they have access to WhatsApp. The chatbot can provide users with a wide range of information surrounding the novel coronavirus pandemic. Information about the virus, symptoms, how it spreads, preventative measures, best practices, government, health and travel advisories, links to official government helplines and more, all in a simplified and easy-to-understand format. Within the first 48 hours of going live, the chatbot has already processed over 5 million conversations with users from across the country.

The helpline number to reach the chatbot is 9013151515.

You can also reach the helpdesk at Facebook and here: <https://dgit.in/mygovcoronahelpdesk>
