digit diary

Talk about a hectic month! Readers who frequent this section already know that Digit magazine closings and delays go hand-in-hand. What we have here though is the mother of all closing delays! We're pretty sure we've broken a record with this one, and we'll probably still be knocked out in our beds when you actually get your hands on this issue. **You'd think with all the work nobody would have any time**

If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

to play. But we will always find some game time to squeeze in here or there, at the expense of a few hours of sleep, if need be.

At this point we don't think we even need to update you about what Adi's been playing. It's still Warframe. He's soon approaching the 7,000 hours played mark. We were actually comparing game times recently, and it turns out that Adi's Warframe game time is more than most of our combined game time across ALL our games played! Mithun had returned

to his CS:GO escapades but recently made a few switches. First it was Valorant, but of late, he's been playing a lot of Fall Guys. Dhriti meanwhile, doesn't have a PC at home, and is thus relegated to the casual mobile gamer category. However, she did have to play a game to review a pair of gaming headphones, and she chose to suck at Crypt of the Necrodancer for about an hour before furiously slamming her laptop shut and returning back to her casual mobile games.

QUOTE OF THE MONTH

DISCUSSIONS

Every month we will highlight some of the more interesting discussions happening on our Digit Forum (digit.in/forum). Head over and join our forum if you want quick answers to your queries from some of the geekiest Indians online. In case you love giving gyaan, or even if you love arguing with others, the Forum is the place you should be.

Workstation laptop

Digit forum members help mastercool8695 pick out a workstation laptop for engineering related applications such as Quartus, Vivado and Altium Designer within a budget of 75K. <http://dgit.in/wrkstion>

GPU for editing

Avichandana20000 is looking for a GPU for a Ryzen 5 3400g based rig, primarily for video editing and rendering purposes. Basically something with max Cuda power. <http://dgit.in/vidGPU>

4K Smart TV

This is a thread with a lot of discussion on the options available. TigerKing wants to purchase a 4K UHD SmartTV, within a budget of 30K. Purchase to be made around Diwali. <http://dgit.in/4kuhdTV>
