WU ASSASSINS

If you like the melding of martial arts mysticism and fantasy then Wu Assassins is just the right show for you. Featuring some excellent fight choreography, the show stars Iko Uwais of The Raid fame and his journey to recover 5 magical powers from various gang lords who threatened to destroy the world, given the opportunity. As usual, Iko Uwais kicks some serious butt with the help of some special effects but more often than not, it showcases just how good these fight choreographers are. Do not miss this show if you like a bit of martial arts in your fantasy shows.

THE WITCHER

Based on the series of best-selling books that inspired the even better selling video game, The Witcher might not be the best fantasy tv show on Netflix but it does have its moments. The story follows the titular Witcher named Geralt as he navigates the political and social powder keg of 'The Continent'. It takes a little while before the show truly hits its stride but Henry Cavill totally kills it as Geralt of Rivia and his performance really makes the show.

THE UMBRELLA ACADEMY

Based on the best-selling series of Dark Horse comic books, the Umbrella Academy is truly one of the most unique Netflix shows out there. There's

a lot of weirdness going on with the show such as a talking chimpanzee and a man with the body of a gorilla, just to name a few. The Umbrella Academy tells the tale of a group of super-powered individuals with an absentee adopted father and a robot mother. Trust us, it all makes sense when you watch the show.

DARK CRYSTAL: AGE OF RESISTANCE

This show defines the word fantasy. The Dark Crystal was one of the defining films of the 80's and this Netflix fantasy web series sets out to be the same for this generation. All told through the art of puppetry, the show gives us a look at the amazing worlds and creations of Jim Henson. Perfect for the whole family, The Dark Crystal is one of the more unique fantasy shows on Netflix.

LOCKE AND KEY

After languishing in development hell for quite some time, Locke and Key finally made its way to Netflix and we can thank the streaming service for that. Based on a series of comic books by Joe Hill, the show has a slightly lighter tone than the comic but it does not distract from the fact that it's one of the better shows on the platform. The story follows the lives of the Locke family and their adventures with a bunch of reality bending keys. Saying any more would spoil the fun. Do check it out.

RAGNAROK

One of the better fantasy TV shows in 2020, Ragnarok is a Norwegian show that retells the story of Ragnarok. It's very low-key in its fantasy but does make up for it with excellent performances and an even better soundtrack. Do not let the subtitles fool you, Ragnarok is really good.

Hotstar+Disney Premium CARNIVALE

If you haven't watched Carnivale yet, drop everything and head to Disney+Hotstar, right now! This show is dark, fantastical and incredibly deep. Carnivale follows the basic story of good vs evil but it takes place dur-

ing a time very rarely seen on fantasy shows, the Great Depression of the 1930s in middle America. It's a tough show to watch but viewers will be rewarded with some of the coolest and weirdest characters on screen. Plus it's got Clancy Brown as a fanatical priest and who doesn't love that?

GAME OF THRONES

Ok, what can be said about Game of Thrones that has not been said before? Good or bad, we have to admit that GoT changed the fantasy genre as a whole. It wasn't some flaky magician nonsense. The show was dark, brutal and had some of the best writing on television. Well, until the last two seasons, but who's counting those, right? Right from the beginning, the show grabs you by the throat and refuses to let go.

PENNY DREADFUL: CITY OF ANGELS

Penny Dreadful: City of Angels is basically a spinoff of the much loved Penny Dreadful but doesn't really follow the same story. It's sort of like the terrible

American Horror Story where the same actors play a different character each season. Instead of London, Penny Dreadful: City of Angels takes place in LA where a pair of detectives solving a grisly murder get dragged into a fantastical and horrific world of demons and creates.
