

Tribute to Chadwick Boseman

Disneyland unveiled a mural immortalising the recently deceased Black Panther actor. <http://dgit.in/oct20-47>

Obi-Wan Kenobi TV series

After being stuck for a while, Ewan McGregor confirmed that shoots for the series starts in Spring 2021. <http://dgit.in/oct20-48>

Toy collecting isn't just a hobby for kids; even us adults, especially geeks, are known for collecting figurines and action figures. Here are some of the most popular collectable figurines of all time.

↑ Beanie babies

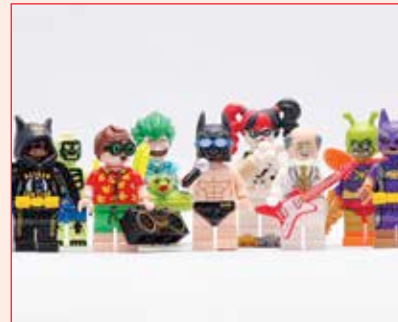

The beanie babies were a line of stuffed animals that were re-released in 1993 but would shoot to popularity in 1995. The limited number of special beanie babies made them extremely valuable for those looking to collect them all.

← KAWS

Artist Brian Donnelly, popularly known by his alias, KAWS, is known for these figurines, which sold out almost immediately on release.

← LEGO Minifigs

Like the Funko Pops, LEGO Minifigs, in addition to featuring characters from pop culture, were highly customisable, which allowed for mixing and matching.

← Kenner Star Wars

The Kenner Star Wars action figures released at the same time as the first movie. The franchise became wildly popular, and the figures sold out in no time.

← Stretch Armstrong

Another toy first introduced by Kenner (recently re-introduced by Hasbro), Stretch Armstrong is a gel-filled action figure which can be stretched to up to 7x its original size.

← Funko Pop

The Funko Pop line of vinyl figures feature characters from just about every form of pop culture there is. The company has over 1000 licenses with different companies.

← TMNT toys

The Teenage Mutant Ninja Turtle toys followed soon after the characters first appeared in comics. They soon skyrocketed to popularity with their own animated series, toys and games.
