SOCIAL MEDIA HAS EVOLVED FROM BEING A MERE COMMUNICATION PLATFORM to now being an actual, viable profession for certain individuals, that if done right can rake in quite a bit of money or simply bring your business into the limelight.

We're all witnessing the enormous growth of social media influencers, some of whom cover niche topics, while others appeal to the more mainstream crowd on platforms such as Instagram, Facebook, YouTube, Twitter, and Pinterest. In India, social media jobs are growing exponentially with several people now joining the bandwagon with much fervour. This is all a result

of the massive cultural shift that occurred during the last decade with social media becoming ubiquitous due to the decline of mobile data

rates and the mass production of budget smartphones.

Even though some of you may still want to put social media jobs in double-quotes, it is still work where you have to be at the top of your game to stand out in the crowd. You need to create riveting content, post it, monitor the engagement, optimise it, and much more. Don't forget that this is still a job and there will be tons

Automating social media updates and posts is especially useful for influencers or aspiring influencers
