

Fictional scripts you can learn

Gnomish, Wakandan, Klingon, Dovahzul and Tennobet are some more practical scripts to pick up. <http://digit.in/nov20-73>

ANKTENT↑ RUNES

Getting into runes is a surprisingly low effort activity, as learning a script is far more easier than learning a language. The best way to learn these runes is to practice writing them, by transliterating poems or short passages. Learning the Elder Futhark should make the rest easy.

Futhark

The Elder Futhark is the oldest and most common among all these runic alphabets, and was used by Germanic tribes between the 2nd and 8th centuries CE. There are many variants of Futhark, including the Elder Futhark, the Anglo-Saxon Futhorc, and the Younger Futhark. The word rune means secret or whisper. The angular nature of the runes comes from the medium they were typically used on. Runes were etched, carved or scratched into hard surfaces such as wood or stone. In modern usage, they can function exactly like an alphabet, with the appropriate runes replacing the sounds. Note here that not all the sounds represented by the runes actually have alphabets, though all the sounds in any language can be represented or at least approximated by the relevant rune.
