

Robo-Boogie

Boston Dynamics robots step onto the dance floor to wish us all a great year ahead! <http://digit.in/jan21-89>

900GBs of Patient Data Stolen

A hacker group known as REvil is threatening to leak before and after pictures of plastic surgery patients. <http://digit.in/jan21-90>

digit diary

Things never seem to let down at the Digit Test Labs. While November is usually the most hectic month for the Digit Team, December turned out to be no different. Firstly, we had the task of converting our annual Zero1 Awards Ceremony into a digital event. Like many companies across the world, we too had the privilege of figuring things out first-hand and executing the same. You can check out the video on our YouTube channel which will then lead to the Awards microsite. Once the Awards preparations were completed, we were nearly through two weeks of the month. And the 'fun' hadn't ended.

Manish, Robert and Mithun had purchased Cyberpunk 2077 with the hopes of finally playing the game but we don't

need to tell you how that turned out. Mithun barely got past the first mission before hitting a snag, Robert was next and Manish made it a little further than both of them before coming across a game breaking bug that simply would not let him progress any further in the game. All three of them have abandoned the game and would rather wait for a few months for the devs to iron out all the kinks before starting off again.

Dhriti got into improving her audio testing process with studio-grade microphones and other expensive equipment. She's been building a isolation chamber to get the right environmental seal. Last we checked, she was dazed and went on building a Matryoshka style boxes which fit within one another. Nuts I tell ya.

Aditya seems to have ditched Warframe. (Finally!) He's gotten busy

QUOTE OF THE MONTH

Which issue is this?

– Random Team Member

playing Werewolf Online with his pals and he's also playing Dark Legends on the side. Dark Legends recently came out with a Christmas event and Aditya's been busy farming vanity gear for his character. **His ambition to be a fully decked out Level 2 Santa Elf is yet to be achieved.**

Towards the end of the month both Dhriti and Manish took off for their annual holidays leaving the remaining three to work on getting the magazine out.

Not much has transpired aside from the usual. Things have started to normalise here in Mumbai and some of the team members have been looking forward to checking out the office after having been cooped up in their homes for all these months. Perhaps, once the vaccines are doled out, we can all look towards working from office once again. It's been one hell of a pandemic.

DISCUSSIONS

Every month we will highlight some of the more interesting discussions happening on our Digit Forum (digit.in/forum). Head over and join our forum if you want quick answers to your queries from some of the geekiest Indians online. In case you love giving gyaan, or even if you love arguing with others, the Forum is the place you should be.

Freely available movies to watch

A thread for all the great movies out there that you can watch for free. Postings vary from indie projects, to public domain works, and YouTube, all legal and without any piracy involved.

<http://digit.in/freemovies>

Mac and ice cream sandwich

Forum user FilledVoid is using an Android phone with a MacBook Pro, and wants to know what features they are missing out on apart from using Airdrop to send files shared between devices.

<http://digit.in/noiouse>

Game performance on card

This is a thread dedicated to answering a single question, how well will a game run on a particular graphics card. The info is crowdsourced, and benchmarks are shared when available.
