

16

## 14 | Governance apps

You sure have heard of Aarogya Setu, but what about Aaykar Setu?

## 16 | Origins

Robots have been around for a surprisingly long time!

## 18 | Startup corner

A number of off beat startups are springing up in the Himalayas.

## 22 | Cutting edge

How face recognition technologies are adapting to the widespread use of masks, and still doing their job.

64

## 64 | Creating a wonderland

A look at how Chicken Bone FX created the magic for Dash & Lily.

## 66 | Booman

Booman is watching Apple and Facebook fight without taking sides.

## 67 | 1000 words

The curator battles continue with more spooky museum exhibits.

## 68 | Hot or not

From cringe binge watching to prebunking fake news, a look at information age problems.

82

## 72 | Earth

A look at exactly how much incipient climate engineering technologies can mitigate global warming.

## 74 | Cutting edge

Programmable medicine are coming and they looks just like regular meds.

## 80 | Space age

How galaxies burn, morph and fade over their long life spans.

## 82 | R&D

Microbots are getting increasingly proficient at navigating improbable terrains, including human colons.

90

## 86 | Back talk

An Interaction with Andrew Hou at the sidelines of the Next@Acer event.

## 87 | Back talk

We talk to Anku Jain of Mediatek about their 5G plans for India.

## 88 | Geek key

These are the common household items that are named after people. Well, at least for geeky households.

## 90 | 1000 words

What did we get after playing 10000 hours of Fruit Ninja?

## ON THE DVD

### TECH

#### Distro

■ Pop!\_OS: Pop!\_OS is an operating system for STEM and creative professionals who use their computer as a tool to discover and create.
