fast tracks to a friend and he lost them in a fire. The fast tracks that I lost were the MySQL, Java, Python versions 2 & 3 and others that I cannot recollect now.

Hi Kieran,

We're so glad to hear that your health is better now, and hopefully it will only continue to improve from here on. How are you finding the reading experience of the digital magazine?

One year subscription of the Digital Mag earns the rights to access the Digit Archive. This is something that you should have received as a link (at the bottom of an email confirming your subscription) when you purchased the 1 year subscription. My apologies if you did not get that. You can access the PDFs of ALL the books and mags we have ever printed from June 2001 onwards (to November 2020).

Feel free to download it all to read. Please don't share access with others outside of your home though.

There's a LOT more than the Fast Tracks there. We change this URL every 6 months, but as long as you're a print or digital subscriber, you will always have access.

I look forward to receiving more feedback from you in the future.

diGit diary

If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

Dhriti tried playing a bit of World of Warcraft before realising it's not her cup of tea, or according to Manish, realised that she was a bad player. Manish has been putting in some hours into Path of Exile, and says that this is the best league ever. Any old players looking for the right time to get back into PoE, or contemplating getting back, this is the league to do so. The Echoes of the Atlas expansion along with the Ritual League make the game a great place to be in right now. Mithun meanwhile spent another month cooped up in office with a whole bunch of lights, tripods, battery chargers, extension cables and wires because it was

another hectic month of intensive video production. Over the course of the entire month, he only managed to find five hours to play Hitman 3. Aditya meanwhile has been stepping into Warframe repeatedly again, we are not sure if this is to get the daily login rewards or make sure that no one deletes the fancy reactor from Beta from his clan Dojo, which he has spent way too much time decorating. Aditya also discovered Brawlhalla in the middle of the month, something that had previously escaped him and went on a brawling spree. Robert had no time to play games this month and is on vacation, visiting caves, forests and beaches. He also got a laptop just so that he could put in a few hours of work from the beach.

QUOTE OF THE MONTH

"I have had no time to play games"

— Everybody, while playing games
