

**Yaogan 31**

China has just launched 3 additional Yaogan 31 reconnaissance satellites. <http://dgit.in/mar21-89>

**4000 Virtual Universes**

Cosmologists tackle the mystery of the Big Bang by simulating 4000 unique virtual universes. <http://dgit.in/mar21-90>

**digit diary**

If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

We've finally had our first two Covid-19 cases among the peeps. Manish came down with the bug first and didn't even realise that he had Covid-19 since the symptoms didn't match up. Roughly a week after him, Dhriti caught it as well. While Manish has more or less recovered from it, Dhriti is right in the middle of the infection cycle. We'll keep you apprised of what happens next month. Mithun, who's been going to the office more often than anyone else, has surprisingly not caught the bug so far. Seems like that paranoia does come handy after all.

A new Intern has arrived! Unfortunately, we're all working from home and the Intern Enrichment Programme cannot be optimally administered. Boy Kanishk sports an american accent despite having

been brought up here in Mumbai and plays World of Warcraft. A lot of it actually. So much that mommy dearest took his laptop away hoping that he'd do something productive. Well, he has started working for us. About the productivity bit, we'll let you know about that next month. At the same time, our previous intern has left the building. Rahul is now free to pursue his passions elsewhere and we wish him the best.

There's been little lull in the gaming part. Manish and Dhriti are excused for the month because of Covid. Although, before the bug got to him, Manish was found looking up RuneScape again. Maybe the nostalgia bug got to him

QUOTE OF THE MONTH

"Everyone: What's that smell? Manish and Dhriti: What smell?"

too. Mithun has become a video producer of sorts and Aditya is the only one who's managed to get any gaming done this month. He's been playing Puerto Rico and Alhambra on Boardgamearena. So if we haven't been gaming, what have we done this month? We've been shooting a lot more videos and experimenting with new stuff. So if you guys ever wanted us to do something weird and wacky, we're all ears. Robert on the other hand has volunteered for some mind-numbing work and has had to sift through countless articles written by ... some of the most prodigious talent to ever speak the Queen's English.

DISCUSSIONS

Every month we will highlight some of the more interesting discussions happening on our Digit Forum (dgit.in/forum). Head over and join our forum if you want quick answers to your queries from some of the geekiest Indians online. In case you love giving gyaan, or even if you love arguing with others, the Forum is the place you should be.

Supreme court lifts ban

The incredulous reactions from the Digit community when the ban was lifted, along with an exploration of the text of the judgement and the hilarious jabs at the RBI within it.

<http://dgit.in/cryptox>

Buying bitcoin in India

The thread tracks the changing regulations and how it affected those who want to purchase and use cryptocurrencies practically, as well as those using it as an investment vehicle.

<http://dgit.in/cryptoy>

Crypto exchanges in India

Although originally meant to be a thread on the best crypto exchanges in India, the conversation is on how to mine bitcoin using cloud services, and how to purchase cryptocurrencies easily.
