

AstraZeneca vaccine update

The company updates its data on its COVID-19 vaccine, and it shows that it is 76% effective. <http://dgit.in/apr21-77>

Huawei unaffected

Despite US sanctions, the company's annual report shows that it has higher net profit from a year ago. <http://dgit.in/apr21-78>

3. Blue Ray Player : Sony-BDP S6700
4. Speakers/Sub Woofers : 5.2 JBL/ Pioneer assembled
5. Fire TV / Tatasky / Amazon Prime / 3D Disks
6. Screen : 140" Grey painted wall
7. Hi-Shock 3D Active Glasses

Everything went well for the past 2 years. However, last month, all of a sudden, USB followed by Bluetooth, failed in the AVR. After a fortnight, the AVR is dead. Now I am searching for an authorized service centre... not to find anything in Digit...

Now, my only request is, why don't you start a separate section on Audio/ Video, Projectors, Amplifiers, AV Receivers, Blue-ray Players, Speakers, Audio Recording/Editing Software, etc.. This will facilitate music/cinema loving persons and also create a taste among the readers for DIY projects. I hope the Digit will be a forerunner in this arena of Technology.

—AL.RAMANATHAN

d Hey Ramanathan,
We hear you loud and clear. We will explore a few story ideas in the coming months to see if we can service more audiophiles such as yourself. If the section takes off, then we might very well make it a permanent addition.

digit diary

Zippity Zoppity, Zip Zop Zap, You asked for it and we put SKOAR! back! Back inside Digit, we mean. And it's not like we're killing off the Digital SKOAR! Issue. That phat gaming mag is here to stay and if we can help it, we'll try to expand and eventually make SKOAR! a separate print magazine. We will need your continued support for that though.

We're pretty certain that you've watched the Snyder Cut by now. The whole 4:3 IMAX format was a bit weird, especially for folks streaming the movie but the experience was so good that no one had any complaints. Practically everyone watched the movie on the very first day that it streamed and a few of us have been rewatching it over and over again. Even during our daily editorial video calls, the peeps have

If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

been switching off their webcams and watching the Snyder cut while Robert is the only one talking. He's been on some nostalgia trip and started boasting about all the Crashday records that he broke by pulling weird stunts. He's so engrossed with boasting that he hasn't realised the others on the call only

respond with "Yeah" and "Alright".

You've heard of Valheim right? The game's been getting rave reviews. Manish couldn't stop himself from picking up a copy. He spent so much time in the game that he hardly realised half the month went by. At the end, it all worked out since he managed

to get enough writing material to dish out a cover story around it. Dhriti has been trying her hand at Guild Wars 2 in the meanwhile, at least until Minecraft 1.17 comes out.

QUOTE OF THE MONTH

"I broke records that no one could."

— *Every Crashday player ever.*

DISCUSSIONS

Every month we will highlight some of the more interesting discussions happening on our Digit Forum (digit.in/forum). Head over and join our forum if you want quick answers to your queries from some of the geekiest Indians online. In case you love giving gyaan, or even if you love arguing with others, the Forum is the place you should be.

Strange lines in Manjaro

An update caused weird horizontal lines to appear on the screen on Manjaro, and the problem was fixed by changing the refresh rate, but forum users think there is something else amiss.

<http://dgit.in/wema>

Virus tracker

Forum users are tracking the feature updates of the virus as well as the vaccination rollout, the meanings of the different phases and waves, as well as the problematic "double mutant" variant.

<http://dgit.in/dblmtnt>

Moar forum users

Digit forum members suggest ways in which the forum can improve, as well as new things that Digit can do to get more users on a type of internet platform getting increasingly dated.
