slots across cities in India. The website lets you quickly search for an available slot in your district.

1. Go to under45.in
2. Select your State and District from the drop-down list
3. Tap Find Slots

If there are any vaccination slots available in your district, the result will display a list of the vaccination centres. Moreover, Bertý is also setting up an automated system on Telegram that will notify users of when the vaccine appointment slots become available in a particular city. This alerts system is being rolled out for major districts first such as Delhi, Gurugram, Bengaluru, Pune, Mumbai and more. You can set up Telegram alerts for your district here.

COVID-19 VACCINE TRACKER ON GOOGLE SHEETS

(Email alerts)

Programmer and Founder of Labnol, Amit Agarwal has set up an auto-

mated system using Google Sheets that will send an email alert to users whenever the COVID-19 vaccine is available in your district. The project is open source and people just need to make a copy of the tracker to get started with it. Amit has detailed the process of creating your own vaccine tracker here and below is the TL;DR version.

1. Make a copy of the Vaccine tracker Google Sheet from here
2. Click the Vaccine Tracker option (beside Help option) and tap Enable
3. Authorize the app through your Google account
4. Click Enable on the Vaccine Tracker option again
5. An alert box will be displayed

Automated system using Google sheets

6. Enter Pin Code, email ID, age group and the frequency of checking vaccine availability.
7. Click on Create Email Alert and you will be notified whenever the vaccine slots open up in your district/pin code.
8. You're good to go and will get email alerts.

GETJAB.IN

(Email alerts, SMS alerts soon)

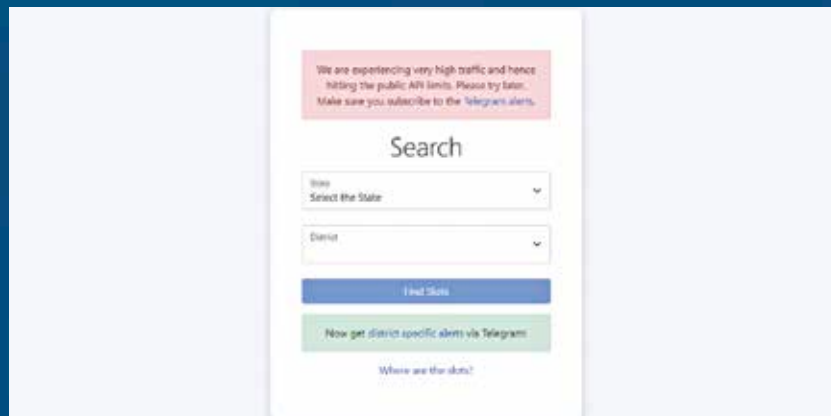

Made by Azhar Hussain, Shyam Sunder, Anurag Kishore and Akshay Nautiyal, Getjab.in will notify people of the vaccination slots whenever they become available.

Currently, people will be notified via email, but the developers are also working on an SMS alerts feature that they expect to roll out soon. To get notified, follow these steps:

1. Go to getjab.in
2. Enter your name, District and Email ID (phone number is optional)
3. Click Get Notified and you're done

FINDSLOT.IN

Developed by Shyam Sunder and Jeroz Nishant, Findslot.in lets you quickly search for a COVID-19 vaccine slot in your district. Users can select the name of the city directly or can find it via pin code or by entering the name of the state and the district. This website crawls the appointment slots from the CoWIN website, however, it does not have a notification alert system yet. www.digit.in
