If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

When this little piece chronicling our team's antics was written, the writer had a little quandary - Which month was this being written for? Our May issue had suffered significant delays owing to a million reasons and our June issue seems to have gotten the better of May. Surprising? Shocking? We'd like to think of it as a mix of them all. The team members have not met up together for more than a year now. Some of us have met each other in smaller groups but the entire team, however small we are at the moment, haven't met each other for a really long time.

While that might seem a little sombre, it did in no way deter us from pulling each other's legs. Or the legs of our many interns. Yes, we've got

interns. And there are a tonne of them. So many that we don't even know what they're all up to. It has long been since the Intern Enrichment Programme was made operational and working remotely has its challenges. But we shall persevere! After all, torturing interns is the kind of motivation that drives the devious minds of some of our denizens.

Speaking of which, the peeps have been getting their shots. Manish and Mithun got a little dose of Covid-shield and both of them had minimal reactions. Mithun's left arm went out

of action for a few days while Manish had the chills for about the same time. The other two are still waiting in line to get their shots. They've been waiting for a while and are more willing to take any of the available vaccines. While Robert

is on the other side of the Indian ocean and is spoiled for choice. He's getting the good stuff, that sweet mRNA vaccine but he's yet to take it. Some of us have started suspecting him of secretly being an anti-vaxxer. You never know! TAKE YOUR SHOTS PEOPLE!

Getting vaccines

It looks like hackers are booking vaccine slots and taking over all available slots from those who are not so tech savvy.
