In one word - "epic"

UNRAVEL - TOKYO GHOUL

'Unravel' was written by TK from the band Ling tosite sigure and Jonathan Young. The first solo single by Tōru "TK" Kitajima, from the band Ling tosite Sigure, 'Unravel' was released on July 23, 2014 by Sony Music Entertainment Japan.

Later featured as the opening theme for the anime series Tokyo Ghoul, this song quickly gained recognition for its epic notes and an indelible melody, and is bound to be one of the most historic

openings in the entire anime theme history! Earmarking a special place in the hearts of all otakus, the song conveys a feeling of personal confusion, and not knowing who you believe you are. This blends perfectly to the consciousness of the protagonist in Tokyo Ghoul season 1, from where the opening originates.

SHINZOU WO SASAGEYO - ATTACK ON TITAN

The opening theme 'Shinzou wo Sasageyo!' (Dedicate your Heart!) by Linked Horizon featured in the second season of the famous dark fantasy series Attack On Titans. Sawano returned to compose the soundtrack for the second season, with the 2-CD soundtrack released on June 7, 2017 by Pony Canyon.

Shinzou wo Sasageyo, often acknowledged by the signature posture of standing with hand crossed over

your heart while paying tribute to the scouts regiment from Attack On Titans, is straight away what an otaku will address as a weebly national anthem.

Thanks to its intense set off with a solid backstory, it can be a true roller coaster track full of goosebumps for listeners!

SILHOUETTE - NARUTO SHIPPUDEN OP 16

'Silhouette' performed by KANA-BOON is the sixteenth opening of Naruto: Shippūden, which began in episode 380 and ran until episode 405. The song itself scores as one of the most nostalgic and awesome intros ever.

Apart from the lyrical aspect, the visuals bring back memories and the words are timeless. Sure, Naruto has a ton of fillers and can become long winded, and it's okay if you don't like it. But if you don't understand the power and nostalgia behind the song, then you might want to reconsider your taste in music! This theme displays how with teamwork and a great friendship, they don't need to know anything about what's to come, they will still fight for their future, and when they finally grow, they'll see all their moments in life. Their hardships, their bonds, and their moments. Just a second, my eyes started sweating again...

GURENGE - DEMON SLAYER

What happens when you combine a sequel intro having epic visuals with an exceptional artist? That's right, "tsuyoku.... nareru... riyuu o shitta... boku o... tsurete susume"!! While we aren't the best singers, Lisa certainly is a whole different story. And if you read that in the same melody from the track, you should know the immense vibe the song descends on the listener; if not, you're missing out on a masterpiece. The song depicts one's encounter with a reason to become strong, coinciding well with the plot of the anime.

Gurenge debuted in the first episode of Kimetsu no Yaiba (AKA Demon Slayer) as the ending song, performed by the pop singer LiSA, known for singing other famous openings such as "crossing field" from Sword Art Online, and "oath sign" from Fate/Zero. The TV version spans for a duration of one minute and 30 seconds, whereas the full version of

the song lasts for three minutes and 56 seconds. The song first aired on April 6, 2019 and was officially released as a single on April 22, 2019.

ODD FUTURE - MY HERO ACADEMIA

'ODD FUTURE' is a song released by UVERworld via the gr8!records label on May 2nd, 2018. The song was used as the fourth opening theme for the anime My Hero Academia and appeared as track #1 on their thirty-second single 'ODD FUTURE'.

The blend of both the visual keys from the intro and this spectacular
