↑ The owner of this “rattling” Xbox 360 HDD wanted to know if recovering the data was possible

← This user spilt coffee on his keyboard, then thought it was a good idea to dry it out in the oven

Credit: smarthawk

← Seen here is an incredibly efficient method for electrical “grounding”

Credit: clearbox

← The user was a kid that pushed the HDMI cable “too hard” into the port at the back of a PS5

Credit: cdq1985

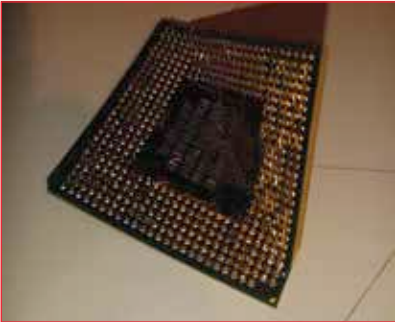

← This is why it might not be a best idea to opt in for the cheapest shipping option

Credit: YTAAppleDemo

← Ballooning batteries are referred to as “spicy pillows” by the tech support community

Credit: Wimbodimbo

← We can chalk this down to “sibling rivalry”
