As the festival season approaches, we figured we'd put together suggestions for gifts for all budgets. Since our readers come from all walks of life, we've made sure to cover everything from under 1k, going up to 25k and above for the more well to do. Of course we cannot include every nice gadget we found into the pages that follow, so you can also consider what follows as ideas for the kinds of things to buy for others, or even yourself.

Also, make sure to check out [digit.in](http://digit.in) during the festive sales, because we will find the best deals and discounts for you, live!
