WHAT'S NEW

Amazon Prime membership in India to get costlier

Amazon has confirmed that the price for the Prime Membership in India will be increasing by up to 50%, which is a rough increase of Rs500 annually. The hike will apply to all the memberships the company offers. Amazon will continue to offer access to Prime Video, Amazon Music, etc under the same membership. As per Amazon's announcement, you can expect the following changes in prices: the monthly subscription will cost Rs179 compared to Rs129 currently and the yearly subscription will set you back by Rs1,499 compared to Rs999. Amazon's affordable pricing

in India is what has helped the platform maintain an edge over Netflix. With OTT platforms such as Disney+ Hotstar, Voot, Zee5 and others offering annual plans that don't exceed Rs 999, Amazon may end up seeing a dip in their subscribers. To combat this, it is probably working behind the scenes on increasing its content offerings.
