

Transform your Synology NAS into your own private cloud with 100% data ownership at zero additional cost

Build a next-gen file server for work and home

DS220+

DS920+

Centralized management and remote access

Through Internet connection, files can be accessed across devices by multiple users anytime, anywhere.

Back up and restore important data

Back up files to multiple devices and platforms with built-in packages. When a disaster occurs, you can restore the important data with a few clicks.

Seamless synchronization across devices

Synology NAS syncs files automatically and creates smart multi-version backups, ensuring storage efficiency.
