

SPICE THINGS UP WITH THESE ACCESSORIES FOR YOUR GADGETS!

Manish Rajesh | manish@digit.in

Loving your gadgets is all well and good, but sometimes you need a little something extra to spice things up and maybe get even more out of your beloved gadgets. Or, sometimes you need something to fully realise your gadget's potential. Either way, it's all about increasing what YOU can get out of your gadgets. To that end, we've got some must-have accessories for your gadgets that you need to check out. While we've picked out specific accessories and gadgets in this list, it does not mean that they're the best possible option or brand for you, feel free to find similar accessories or alternatives from different brands.

BELKIN MAGNETIC PHONE MOUNT WITH FACE-TRACKING

The Belkin magnetic phone mount with face-tracking does exactly what the name implies, it uses iPhone's face tracking feature to follow you around when recording video. Unfortunately, this one's for iPhone users only, because it utilises the MagSafe feature to magnetically secure the device to the mount. Another thing to note is that you need to record video through Belkin's app to utilise the face tracking features. The iOS app can be directly connected to your social media, allowing for easy posting of your face-tracked footage.

HYPERJUICE GAN 100W USB-C CHARGER

The HyperJuice GaN 100 W USB-C charger uses something called Gallium Nitride (GaN) tech which supposedly makes it a lot more power efficient than traditional power de-

livery technology. This allows it to be a lot more compact, which in-turn allows for a design that both securely fits into wall sockets, and can also be stacked one upon another in order to increase the number of charging ports available. There are four ports on each HyperJuice charger, including three 100 W-rated Type-C connectors, and a single 18 W USB Type-A port. The charger uses a 2-pin plug and has a built-in AC power outlet rated at 1500 W.

VAVA 12-IN-1 DUAL 4K DOCKING STATION

The VAVA 12-in-1 dual 4K docking station is a docking station with a decently small footprint, allowing you to safely fit it behind or even under your laptop. When it comes to connectivity options, the dock comes with quite a few options, including
