Dear Team Digit,

I am 64, a long-term subscriber of Digit. I did not have any IT background but my job profile pulled me into IT functions. My favourite topic in Digit has been 'Level Up' helping me enrich my IT knowledge. I suggest Digit to include more material on Google Apps.

—Ramesh Kumar Kalra

Dear Mr Kalra,

Thank you for your long term patronage and support of our brand. We will try and incorporate your suggestions, and do the level-up section more often.

digit diary

If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

It was a rather calm and sunny day in the city of Selune's Watch and our merry band of heroes had been summoned to unravel the mystery of disappearing citizens. Strange noises would punctuate the dark nights and in the midst of all this, a blood-curdling scream would mean that yet another unfortunate denizen had been napped. The task before our heroes was fraught with unknown peril and they could be doomed to suffer the same fate as those they set out to rescue.

Our heroes, Bayder, Aria, Vajra and Vlad, might seem to be benevolent adventure seekers who battle the forces of evil to bring balance and tear the veil of chaos

that drapes the world. But the fact is ... that they're only doing this for the money. The cleric is out to make money and so is the fairy. The wizard is anything but wise and the brawler is afraid of brawling. If you haven't figured out what's happening then you're in the same boat as the rest of the team. The folks tried their hands at Dungeons and Dragons and boy did they cause a spectacle.

Back in the real world, Ali has been after everyone to play Forza. Since the game is available on Xbox Games Pass, everyone ended up getting a subscription. Everyone, but Ali. You see, Ali likes to keep his money in an archaic bank which barely

has net banking services. So, he spent a couple of days trying different VPNs and tricks to buy the pass. He finally did manage to buy the pass and install the game. But everyone had already moved on to the next game by then.

So what are the others playing? An indie title called "Vampire Survivors". The game has several roguelike elements and the folks on the team have been trying out various combinations across several completionist runs. The game is ridiculously addictive, yet simple.

P.S.: If you figure out which hero is played by which team member, then we'll send you a goodie.
