If you are ever curious about what the **Digit gang is up to**, this is the place to get all the inside info. From the **latest game we're obsessing about** to the newest intern we're driving up the wall – it's all here folks.

It was a boring Monday when we noticed some movement. That of the thin layer of clotted cream on their morning 'Chai' forming ripples. The 'malai' on the 'Chai' started veering towards the edge of the cup and then without a notice, BANG flew open the door to the Test Centre. We were staring at a creature that only a few from the Test Centre had seen before. Its glistening eyes darting across the room as it sized-up each denizen of the Test Centre, like a wolf that scans across the meadow in search for the easy prey. Its eyes stopped, zeroed in on a pedestal that seemed familiar from aeons ago.

"Guess, that's where I'm sitting?"; said Jayesh "Big Daddy" Shinde. As he made himself comfortable, he noticed that everyone's screen had the same damn thing running - Vampire Survivors. Yeah, we know. We've been playing a rather simple game for a lot longer than we'd have but the game dev has been doing a great job of consistently adding more content with each passing week.

Didn't we say that we'd started playing Dungeons and Dragons? We'll that's been going rather slow. It would seem that getting our DM to put up another session would be a real-life campaign in itself.

As for a matter of record-keeping, let it be known that Dhriti has to livestream Minecraft because she lost a bet to Mithun. You shall see her on our SKOAR! YouTube channel very soon. **d**
