

Gaze

Funding: US\$ 13,670 pledged of US\$ 10,194 goal

Link: <https://dgit.in/gaze>

If you are someone who often works or studies outdoors – in places such as cafes and restaurants – chances are you will be carrying your possessions such as your wallet, laptop, smartphone, and other valuables. Unfortunately, the threat of theft is a real one, especially in cities like Mumbai. To that end, Gaze is a portable gadget designed to protect your personal belongings. It is meant to prevent thefts from taking place by scaring thieves away or assist in prosecution in worst-case scenarios. The company calls it a hybrid security alarm and vibration sensor. All you need to do is set up the device with a 4-digit passcode that locks itself. Then, set it on top of or close to your personal belongings. The

device captures footage via a fisheye camera and detects motion via built-in sensors. If anyone attempts to touch your belongings when you're away, a loud alarm will trigger which will probably scare off the thief. If the alarm doesn't deter the thief, the footage captured can be sent to the accompanying app which can be used to identify the perpetrator. Motion alerts will also be sent immediately via a notification to users. The app can be used for real-time monitoring as well. You can pick one of these up for \$79 for a limited time period.

Lodge Solar Powered Speakers

Funding: US\$ 180,506 pledged of US\$ 10,000 goal

Link: <https://dgit.in/lodge>

Bluetooth speakers are a ubiquitous gadget owing to their convenience. However, it can become a hassle to charge them over and over again alongside the array of devices you need to charge. Lodge Outdoor has a solution. The company's Lodge Solar Powered Speakers are truly wireless speaker systems meant for the outdoors. The company says, "Unlike portable party speakers, you never need to bring Lodge speakers inside to charge; they live outside all year round". How you may ask? The speakers are powered completely by the sun! The speaker comes with a stake that you can insert into the ground outdoors and then you just mount the speaker on top of the stake magnetically. The Lodge speaker is covered in 180 square inches of shatterproof solar panels that allow them to charge passively. It has a battery life of 15 hours but continues to charge throughout the day, so chances are, the speakers won't run out of juice too often. They're also resistant to rain, dust, sand or dirt. The speaker comes with a 4-inch passive subwoofer, a ¾-inch dome tweeter, and a 4-inch calibrated driver. There's also a 50 W amplifier and Bluetooth 5.3 connectivity. You can purchase one for \$210 for a limited period.

CURA – 360° Plant Care

Funding: US\$ 168,670 pledged of US\$ 25,000 goal

Link: <https://dgit.in/cura>

Altifarm's CURA is a 360-degree plant care product that can allegedly turn any corner of your home into a garden. The product incorporates professional-grade OSRAM LEDs to provide lighting solutions for any size and type of indoor plant. Using selected presets, the device ensures that the plant gets optimal lighting conditions to thrive. The presets are available for different types of plants such as herbs and greens, flowers and fruits, and more. The product can support plants during all

stages of their growth, from vegetation to flowering. The product houses the CURA pump that provides automated watering solutions to avoid the hassles of watering plants manually every day. The company

also claims that CURA allows the growing of plants all year round, even if they are seasonal. This is possible due to the ideal wavelengths of light and nutrition provided by the device. If you're worrying about the design, the device is anything but an eyesore and will enhance the look of your home's interiors. The halo-shaped lamp is easy to install and sits on a mount that can swivel 180-degrees. The gadget can be controlled via the CURA app; users can manage all their CURA

devices simultaneously, set watering schedules, create their own lighting presets and more. CURA is available at an Early Bird price of \$59 at the moment, that's a \$40 discount on its retail price of \$99.
