Best smartphone camera: ₹30,000 edition

Find out which smartphone camera proves to be the most reliable under the ₹30K price point

Dhriti Datta | dhriti@digit.in

A

typical mid-range smartphone in 2022 has transcended into being a jack of all trades. Equipped with

features and specifications once reserved only for the crème de la crème of the smartphone world, mid-range phones are rightly one of the most value for money tech investments. As the powerful SoCs, large batteries, absurd charging speeds, and more flowed down to mid-range phones, so did high megapixel-count sensors, technologies like optical image stabilisation and night mode, and much

more. This has resulted in smartphones under ₹30K housing some pretty incredible camera arrays, some of which can give their high-end counterparts a run for their money. But picking the best camera smartphone under ₹30,000 can be quite a chore owing to the cornucopia of choices. Hence, we have pitted three of the best smartphone cameras against each other to help you pick. Let's delve right into the camera comparison of the Realme 9 Pro+, Samsung Galaxy M53, and the OnePlus Nord CE 2.

REALME 9 PRO+ CAMERA SPECIFICATIONS

The Realme 9 Pro+ is equipped with a triple camera array consisting of a 50 MP Sony IMX 766 primary shooter with OIS support, an 8 MP ultrawide lens, and a 2 MP macro camera. For selfies, the company has provided a 16 MP selfie lens. The camera comes equipped with a plethora of features such as Street Photography, AI Noise Reduction, gyro EIS, HDR support, Phase Detection Auto Focus, and

more. For video, the phone is capable of shooting 4K at 30 fps, 1080 at 30/60/120/480 fps, and finally super slow motion video at 720p at a whopping 960 fps. You can shoot 1080p video at 30 fps via the selfie camera.

SAMSUNG GALAXY M53 CAMERA SPECIFICATIONS

The Samsung Galaxy M53 houses a quad camera stack headlined by a 108 MP primary lens. This is accompanied by an 8 MP ultrawide shooter, a 2 MP macro lens, and a 2 MP depth sensor. For selfies, you get a 32 MP Sony IMX 616 shooter. The phone features HDR support, Super Slow Motion Video at 240 fps, and Phase Detection Auto Focus. For videography, you can shoot 4K at 30 fps, 1080p at 30/60 fps and super slow motion video from the rear camera. The selfie camera can shoot 1080p videos at 30 fps.

ONEPLUS NORD CE 2 CAMERA SPECIFICATIONS

Lastly, we have the OnePlus Nord CE 2 with its triple rear camera setup.
